Pauline Skeates
June 14 16, 2024

What is keeping you back from being your best self?

Your beliefs? Your feelings? What has happened to you? Your environment? Your health? The expression of your genes? Whatever it is, most of us want to get rid of these impediments. But how? Do you also feel **trapped** by a particular frame of mind or certain circumstances?!

Come and discover keys for transformation to become your best self.

During this seminar, New Zealand psychotherapist, **Pauline Skeates**, will teach from her years of research and experience. She will share keys for transformation and show us how to take advantage of and apply the unique way God made us.

Discover **simple tools** to find transformation supported by **neuroscience**, kwantum physics, compassion studies, bio-cellulair **research** and Christian spirituality. Pauline will help us identify impediments so you understand why it is so difficult for many people to get what they **desire** deep down inside. She will present practical solutions to get around these obstacles and help us experience how to support others in doing the same.

The seminar is fully catered, which includes three lunches, one dinner, beverages, refreshments and materials.

Interested?
The price of the seminar is €500. Sign up now, bring someone along and receive a discount of €50 per person that signs up because of you!
Couples or housemates receive €100 discount.

We look forward to seeing you at the seminar!
